

Galvanized steel discus cage - 4.50m high

Ref : 13275

Catalogue Page : 62

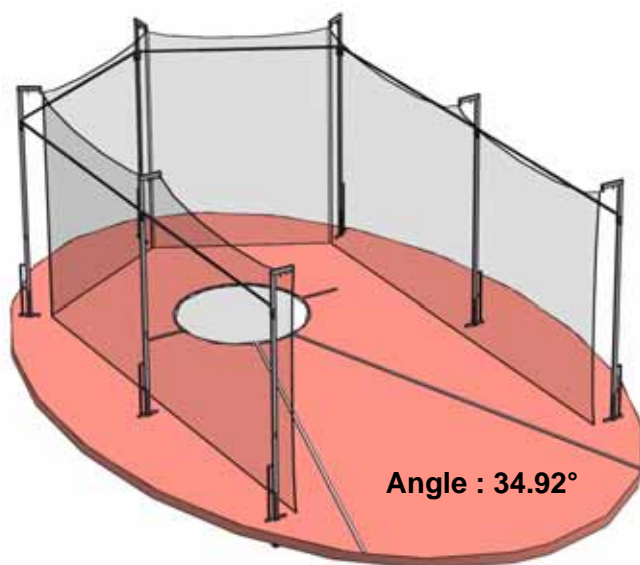

DIMA

S P O R T

F.F.A. et I.A.A.F
compliant

IAAF Certificate
n° E-99-0091

Angle : 34.92°

Cage compliant with new IAAF 2004 regulations : All brackets and sleeves are galvanized to offer maximum resistance in demanding weather conditions *** DIMA recommendation is to lower the net and to link panels together after each use ***

COMPOSITION :

7 x 5m high brackets to be fitted into ground sleeves / 7 x 50cm deep ground sleeves with lids to be sealed into the grounds / Net: 1 x 27x5 m / 7 braided ropes / 6 ballast bags / 1 set of spacers. Net is designed for slack set up to absorb the impact of thrown objects, thus avoiding dangerous rebound.

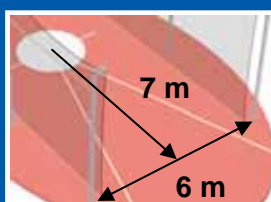

Easy to hoist & lower
45mm net - rope & roller
system

Adjustable spacers to
strengthen the structure

Brackets are reinforced at
the base to ensure rigidity
of the structure

Rule : the cage must be U
shape ; the width of the
mouth should be 6 m,
positioned 7 m in front of
centre of throwing circle
