

Tourism route

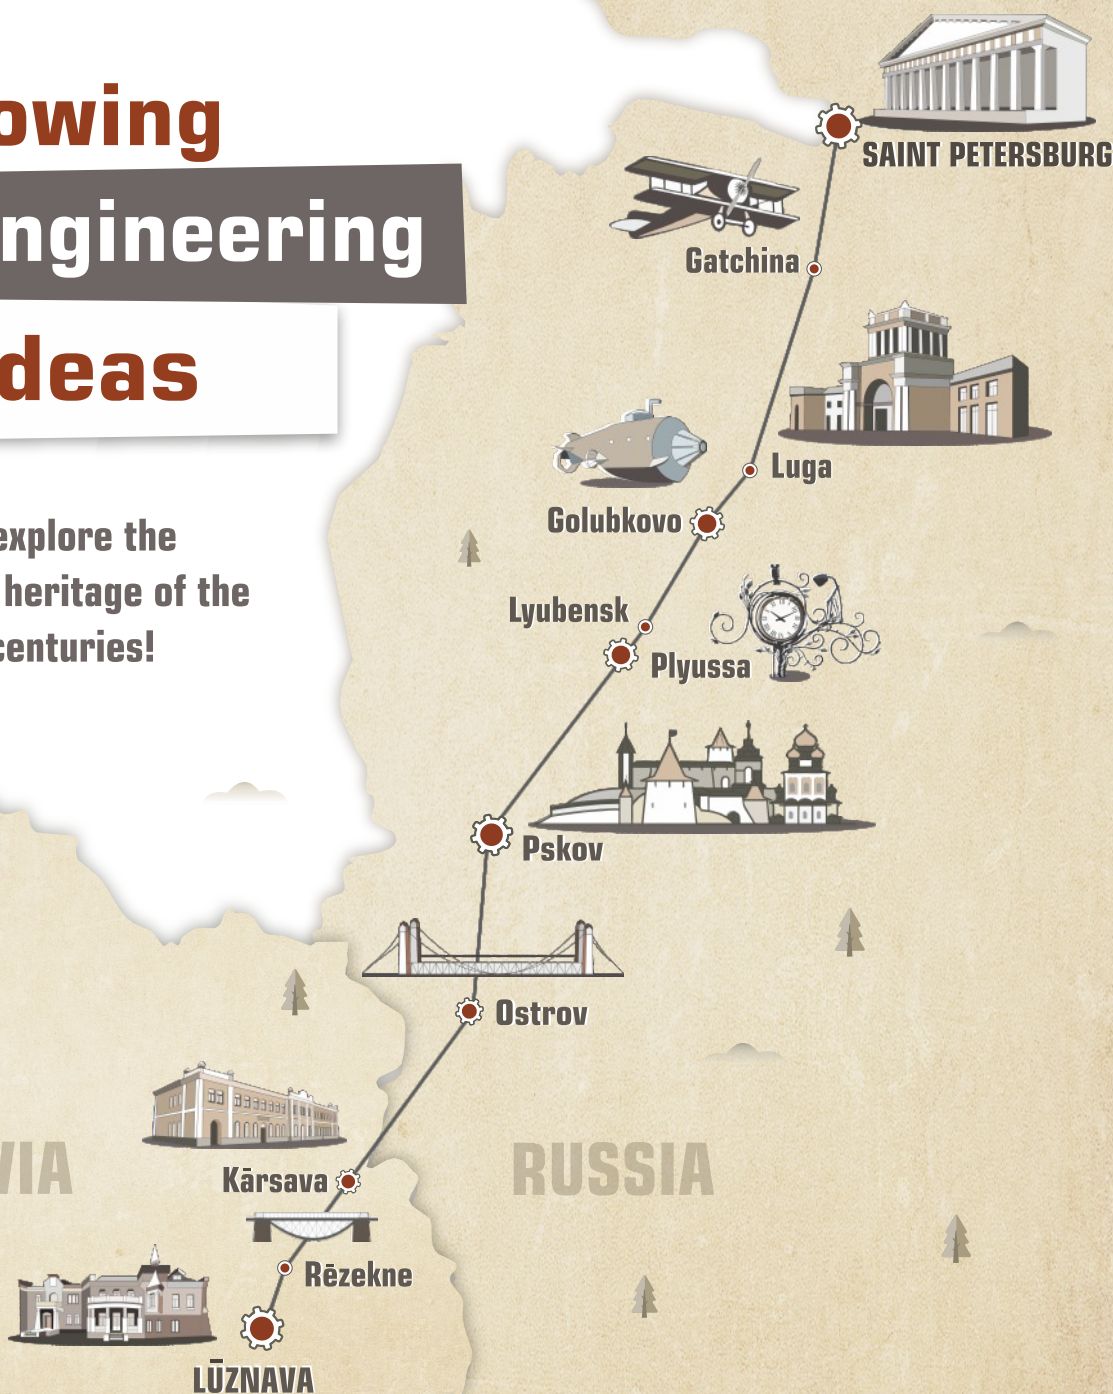

Following the Engineering

Ideas

Visit and explore the industrial heritage of the previous centuries!

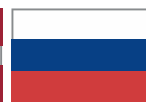

LATVIA

RUSSIA

LATVIA-RUSSIA

CROSS-BORDER COOPERATION PROGRAMME

CO-FUNDED BY THE EUROPEAN UNION, THE REPUBLIC OF LATVIA AND THE RUSSIAN FEDERATION

This publication has been produced with the financial support of Latvia-Russia Cross-Border Cooperation Programme 2014-2020. Its contents are the sole responsibility of Rēzekne Municipality and do not necessarily reflect the views of the Programme, Programme participating countries Latvia and Russia, alongside with the European Union.

LŪZNAVA

Manor

Latgalian pearl of Art Nouveau. It was built in the early 20th century, it was a favourite place for musicians, artists, and literary elite. Guided tours around the manor and park, concerts, exhibitions, premises for creative workshops, educational activities.

Address: Pils iela 8, Lūznava, Lūznavas pagasts, Rēzeknes novads, Latvija, Phone: +371 28686863, www.luznavasmuizja.lv

Centre of engineering ideas and interactive exhibition "Stanislav Kerbedz: following the engineering ideas"

An interactive exhibition is located in the manor basement where everyone can get acquainted with achievements of engineer Stanislav Kerbedz (1810-1899). You can use the interactive screen to see the bridges and engineering structures designed by Kerbedz. At the same time the exhibition class offers the visitors to test their skills in building bridges and other structures.

Rēzekne Stanislav Kerbedz's railway bridge

One of the oldest railway bridges which was built over the Rēzekne River. The bridge still has its original structure: the curved arch is not above the deck (the case for most bridges) but under it. The bridge was built in 1899, according to the design of engineer Kerbedz who used steel lattice elements in the construction. At the end of World War II, the bridge was blown up; rebuilt in 1947.

Address: Viļānu iela, Rēzekne, Latvija, coordinates: 56°30'27"N 27°19'06"E

Kārsava

Railway station

One of the most important railway stations of Tsarist Russia, built in 1860. The oldest railway station building in Latvia. The historic buildings of the railway station are still preserved.

Address: Bozova, Malnavas pagasts, Ludzas novads, Latvija, Phone: +371 29327265, coordinates: 56°48'49"N 27°41'43"E

Ostrov

Chain bridges across the Velikaya river

The bridges are built in 1851-1853 according to the project developed by Mikhail Krasnopolsky, engineer of transport routes. The only chain bridges used for transportation in the middle of the 19th century.

Address: Россия, Псковская область, город Остров, улица Калинина, coordinates: 57°20'25"N 28°21'08"E

Pskov

Kremlin

The Pskov Kremlin is a military engineering monument of the 14th - 18th centuries. The Kremlin is located at the junction of the Velikaya River and the Pskova river. The old building is considered as one of the best examples of the defensive architecture in Europe.

Address: Россия, город Псков, улица Кремль, дом 4

Plyussa

Pavel Bure square

Pavel Bure (1842-1892) is a well-known watchmaker in Russia and beyond, the owner of a watch factory that later served as foundation for "Pavel Bure's Trading House". He owned the manor on the banks of Lake Dolgoye, not far away from the settlement of Plyussa. Since the manor has not been preserved, the monument to "Engineering" in remembrance of Pavel Bure has been erected in the square alongside with recreational area.

Address: Россия, Псковская область, поселок Плюсса, улица Школьная

Lyubensk

Memorial museum - manor of Nikolai Rimsky-Korsakov

The museum is a small corner of the marvelous Russian nature that was inseparably linked to the life and creative work of one of the geniuses of the 19th - 20th century Russian culture, Nikolai Rimsky-Korsakov. His works include 15 operas, 3 symphonies, symphonic music, instrumental concertos and cantatas. The museum houses the exhibition "Figures of iron universe".

Address: Россия, Псковская область, Плюсский район, деревня Любенск, Phone: +7 8113321553

Golubkovo

Recreational area near Lake Cheremenetskoye

The recreational area in Golubkovo village, at Lake Cheremenetskoye. Visitors can see the full-scale submarine model built by engineer Kudryavtsev in 1886 and the anchor exhibition. It is possible just to walk and relax on the shores of the picturesque lake.

Address: Россия, Ленинградская область, Лужский район, деревня Голубково

SAINT PETERSBURG

Museum of railway transport

Visitors can get acquainted with the largest exposition devoted to locomotives and wagons from various eras, different types of railway bridges and station buildings.

Address: Россия, город Санкт-Петербург, улица Садовая, дом 50, www.cmzt.narod.ru

Mining museum

The Mining Museum was established at the same time as the Mining University, located in the building of the oldest technical university in Russia, established in 1773. One of three best natural science museums in the world. There are unique collections of minerals, ore materials, stone and jewelry art as well as models of mining and metallurgical articles.

Address: Россия, город Санкт-Петербург, 21-я линия Васильевского острова, дом 2, Phone: +78123288035, www.museum.ru/M105

Museum of bridges

Branch of the museum of railway transport - the only one museum of bridges across the world. The largest exhibit in the museum is the model of the Blagoveshchenskiy bridge. Visitors can get acquainted with the history of bridge engineering, see the models of outstanding marvels of this field of engineering including the ones built by Stanislav Kerbedz.

Address: Россия, город Санкт-Петербург, Мучной переулок, дом 2.

Blagoveshchenskiy bridge

The first arch bridge across the Neva, built in 1843-1850 according to the project of Stanislav Kerbedz. The bridge barrier railings, lanterns, and pavilions are placed on the list of Russia's cultural heritage objects.

Address: Россия, город Санкт-Петербург, Английская набережная, у дома 38, coordinates: 59°56'04.75"N 30°17'22.9"E

Submarine "Narodovol'ec" and museum

One of the first Soviet submarines. It was laid in 1927 at the Baltic shipbuilding facility in Leningrad, joined the fleet in 1931. The submarine became a museum in 1994. Visitors can have the guided tour around the submarine sections and get acquainted with the history of underwater shipbuilding.

Address: Россия, город Санкт-Петербург, Васильевский остров, улица Шкиперский проток, дом 10, www.navalmuseum.ru/filials/narodovol'ec

Gatchina

Monument to the first mass-produced submarine

The submarine by Stefan Drzewiecki, engineer and inventor of Polish origin, has become the first mass-produced submarine in Russia. The testing took place in 1880 in Gatchina at Lake Serebryany. In 2006, there was opened the monument which imitated the full-scale model of submarine.

Address: Россия, Ленинградская область, город Гатчина, улица Григорина, дом 7А

History museum of aircraft engines

The museum is located in the premises of the former factory, at the historical building of the court stables. There are 16 full-scale models of aircraft engines.

Address: Ленинградская область, город Гатчина, улица Григорина, дом 7А, Phone: +7 9118346893, www.museum.ru/M3031

Luga

Railway station

The railway station of 1947 was built to replace the former splendid station with royal chambers destroyed during the World War II. Till 1917, the Luga station was used again and again to welcome members of the emperor's family, representatives of European military delegations, as well as Peter I Karadjordjević, King of Serbia.

Address: Россия, Ленинградская область, город Луга, улица Малая Инженерная, дом 11
